

W/872

11th March 1918!,

S.S. "IKEDA"

RPYAL ALBERT DOCKS.

With reference to the Owners letter of the 7th inst, requesting post-ponement of dry docking, owing to lack of docking accommodation at this port. I am of opinion the dry docking of vessels might in these circumstances be deferred for one voyage, providing the necessary repair to transverse framing be now effected, and the internal Examination being to the satisfaction to the Surveyor.

*The vessel is at present
under survey in London.*
