71, Fenchurch Street, E.C.

12th June, 1917.

Dear Sirs,

S. With reference to the classification in this Society's Register Book of your steamer "ILSTON", I beg to acquaint you that the Committee have had before them a report received from the Society's Surveyors at Southampton, of a survey held consequent upon damage sustained to the shell plating etc., through collision.

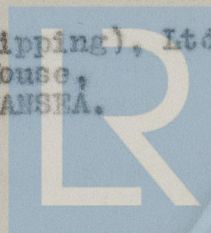

The Surveyors recommend that permanent repairs should be effected on the vessel's arrival at a port in the Bristol Channel, and the necessary instructions have been forwarded to the Society's Surveyors at the ports in that Channel with a view to the case receiving attention on her arrival.

I am, Dear Sirs,

Yours faithfully,

Secretary.

Messrs. Richards Turpin (Shipping), Ltd.,
Gloucester House,
SWANSEA.
