Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.

22nd September 1916.

Dear Sir,

With reference to the classification in the Society's Register Book of the Steamer "CAMILLA", I have to acquaint you that to complete the Boiler Survey, which became due so long ago as August 1915, and entitle this vessel to a record of B.S. 12.15, the safety valves of the donkey boiler require to be adjusted under steam.

I have at the same time to point out that this vessel became due in June last for Special Survey No. 2, and the survey of the screw shaft, and as she appears to have recently left New York for Rotterdam, I have to request that you will ascertain and let me know for the information of the Committee, what arrangements the Owners propose making with a view to these outstanding requirements receiving the necessary attention.

I am, Dear Sir,

Yours faithfully,

S.A. Eide, Esq.,  
BERGEN.

Secretary.
