

COPY.

22nd October, 1914.

Dear Mr.Boyd,

I am in receipt of your letter of yesterday respecting your Report on the steamer "HAMBLETON RANGE" and have had the necessary alteration made as requested.

With regard, however, to your Report on the "CHEVIOT RANGE", it is noted that in the list of spare gear no mention is made of feed and bilge pump valves. I conclude that these were supplied, but shall be glad if you will advise me so that we may alter the report accordingly.

I also note that you have made no recommendation as to the necessary record, but we are recommending to the Committee that the record should be 10.14.

With kind regards,

Yours truly,

A.Boyd, Esq.,

WEST HARTLEPOOL.
