28th December, 1916.

Dear Sirs,

The new Steamer "ARDGASK", built by Messrs Russell & Co., of Port-Glasgow, has left this Port for Barry. To complete the survey on the hull, the tunnel watertight door requires to be examined; and to complete the machinery survey, the boiler collision checks require to be examined.

The Owners desire the vessel's completion date to be 1917, and it has been arranged that the survey should be completed at your Port, where we understand the vessel will remain about a week.

We shall be glad if you will give the case the necessary attention, and report the completion of the survey to London in the New Year.

We are, Dear Sirs,
Yours faithfully,

J. Bennett & J. Harbottle.

The Surveyors,
B A R R Y.
