

PUMPING ARRANGEMENT Endorsement.

Shipbuilders: Messrs. *Wm Doxford & Sons Ltd* Yard No. *640*
Engineers: Messrs. Engine No.
Owners: Messrs.

It is submitted that the plans of
Pumping Arrangement *in the Machinery space and*
oil fuel Burning Arrangement
merit approval, provided the arrangements be as
shown and amended on the plans and the remaining
requirements of Sections 20^{20A} and 34 of the Rules (1937-8)
be complied with so far as they are applicable.

*It is noted that the oil fuel tanks are provided
with float gear for the purpose of indicating the
level of oil in the tanks, and it should be
pointed out that it will be necessary for overflow
pipes to be fitted so that oil will not escape
through the opening for the chain or wire leading
to the indicating device.*

*Alternatively, an approved alarm device should
be fitted to each tank to indicate when the tank
is $\frac{2}{3}$ full.*

*It is concluded that each of the boilers is
capable of supplying sufficient steam for all
essential services at sea.*

Return *2* plans
Retain *2* copies
