Enclosure.

1st December, 1937.

Dear Sirs,

E.

I return herewith one copy of the plan, forwarded with your letter of the 24th ultimo, of general pumping arrangement proposed for Messrs. Wm. Doxford & Sons' Yard No. 640, and I have to inform you that this plan will be approved provided the arrangements be as shown and amended thereon, and the remaining requirements of Sections 20 and 34 of the Rules (1937-8) be complied with so far as they are applicable.

It is concluded that the 12" vents will not be used when oil fuel or water ballast is carried in the deep tank, and accordingly the overflow pipes to this tank should have a cross sectional area not less than that of the filling pipes.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,
SUNDERLAND.
