22nd. July 1944.

Dear Mr. Kurz,

I was very pleased to hear that the "MARKAY" made a satisfactory voyage free from incident en route as would indicate that both the temporary repair and the ballast condition prescribed properly served their purpose, no doubt ably assisted by the Captain to nurse his ship.

As regards the assistance given, I was grateful for the opportunity to assist Mr. Finnigan in overcoming all apparent obstacles. The technical aspect of the case was very interesting and our association was a very pleasant one.

I appreciate very much your letter of thanks.

With kind regards,  
Yours sincerely,

Chas. Kurz Esq.,  
Vice-President,
