

Gross Tonnage 10342
of beam at side of uppermost continuous Deck See Sec 2 (1c)
D 37.0. Owners KEYSTONE
5c.10.40.
s/s "MARKAY"

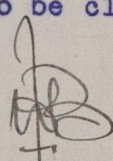

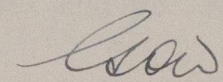

PETROLEUM IN BULK.

This vessel is a duplicate of the s/s "SEAKAY" which was dealt with as regards the electrical installation in the submission to the Committee dated 8.1.43.

The first entry Electrical Lt. Report has been examined and found to be identical with that for the "SEAKAY".

The installation does not comply with the requirements of the Rules for electrical equipment in that an A.C. supply is used for the power and lighting services throughout the vessel. It is stated by the New York Surveyors that the installation complies with American Bureau standards and those of the A.I.E.E. Suitable safeguards have been incorporated and the installation is considered to be safe and such as could be accepted as in previous cases.

IT IS SUBMITTED the vessel is eligible to be classed for carrying Petroleum in Bulk

10.3.43.
