Mr. Symonds

Dear Sir,

In September I had a vessel called the Matchless rebuilt in our Dock here, and as she is now in London I will be discharged in the course of a day or two. I would wish your gentlemen Surveyors would look at her for Relapsification, Mr. Thomas Jackson your Surveyor here will have furnished you with this will all the particulars of her most extensive repairs. - He Mr. Jackson says she ought to have been Specially Surveyed, - But from the circumstance of my absence at the time of her repairs and really not knowing the full extent of it until my return when it was too late. -

I hope therefore the Gentlemen will have the goodness to relaps her agreeable to what they may consider her entitled to. -

I write the Master this Post to call at your Office to give sufficient Notice when his vessel will be ready for Survey

Remain Sir  
Yours truly  
Wm. Whitty
